## Featured Project – *Thirty*

*Thirty* puts a lens on women of all different ethnicities, sizes and sexualities. It is written, produced and directed by women and stars a bunch of fabulous female characters stumbling through their early thirties and trying to get their shit together.

Writer/Actor Tricia-Lyn Morosin drew inspiration from hitting her own “dirty thirties” and realizing that there wasn’t enough representation of diverse women within the industry. Director Leah Pellinkhof is passionate about telling LGBTIQ stories and having strong, authentic lesbian characters portrayed in films. *Thirty* is exactly that kind of project with queer actors playing queer roles.

A Pozible crowdfunding campaign is being run to raise funds for post-production, distribution and marketing. For a sneak preview or to check out the awards on offer visit: <https://pozible.com/project/thirty-the-series-season>
